

YOU'RE IN

HERE'S WHAT HAPPENS NOW.

Start with the intake. Everything else follows from it: your system gets built from your answers within 48 hours, and your DNA kit is already on its way. You will be eating to a real plan long before your genetics come back. Every link is printed here so you never lose them.

01

FILL OUT YOUR INTAKE, GET YOUR SYSTEM IN 48 HOURS

Do this first, today. It is what your whole system gets built from: your numbers, your training, and the food you actually eat. **Your finished system is back in your hands within 48 hours**, built by hand, and then you start eating to it.

02

BOOK YOUR ONBOARDING CALL

Book it now for a few days out, so your system is in your hands before we talk. We go through it together, line by line.

legacyperformance.co/onboarding-call[BOOK MY CALL](#)

03

SWAB, AND SEND IT BACK

Your kit arrives in 5 to 7 business days. A cheek swab, the instructions are in the box, and it goes back in the prepaid mailer. Do it the day it lands.

[5 TO 7 DAYS](#)

04

YOUR RESULTS CALL

Your genetic read is done 2 to 4 weeks after the lab has your sample. We book a time, go through it, and put it straight into your plan.

[2 TO 4 WEEKS](#)**THE WAIT IS THE POINT**

You are not sitting still until your genetics land. You spend those weeks eating to your plan and building the habit, so when your results arrive it is an adjustment to something already running, not a fresh start.

WHAT HAPPENS FROM HERE

TODAY

Fill out your intake and book your call. Your kit ships.

**48 HOURS AFTER YOUR
INTAKE**

Your nutrition system arrives, built by hand. You start eating to it.

5 TO 7 BUSINESS DAYS

Your kit lands. Swab it and mail it back the same day.

2 TO 4 WEEKS LATER

Your genetic read is done. We sit down and put it into your system.
