YOUR SPOT IS RESERVED

HERE'S WHAT HAPPENS NOW.

You've reserved one of ten spots. Four quick things while I build your system to show you. The first one matters most, because your intake is what I build that system from before our call. Every link is printed here so you never lose them.

01 FILL OUT YOUR INTAKE. TODAY.

This is what I build your system from before we talk: your numbers, your training, and a three-day recall of the food you actually eat. **Do it before anything else** — I can't build anything without it.

START MY INTAKE

02 BOOK YOUR CALL

This is where I walk you through your actual system, built for you off your intake, and you decide if it's a fit. **Book it now** so you get the slot you want over the next few days.

BOOK MY CALL

03 START TRACKING YOUR FOOD NOW

Don't wait for the call. Start logging what you actually eat today — **Cronometer is free and it's what we'll use.** Real data beats a perfect week: it's what makes your system accurate, and it gets the habit going.

TODAY

04 JOIN THE PROJECT

Free, and it's where the teaching lives. Jump in, say hi, and start there while I get your system ready.

JOIN THE ROOM

What your deposit does

Your deposit holds one of ten hand-built spots. Over the next few days we get on a call, Jayme walks you through your actual system, built for you, and you decide. If it's a fit, you take care of the balance and everything unlocks — your app, your full system, your DNA kit and your 30 days of coaching. Until then, your intake and your tracking are all that's needed. Text anytime in the meantime.

WHAT HAPPENS FROM HERE

TODAY
Intake in, your call booked, you're in the room, and you start tracking.

YOUR CALL
Jayme walks you through your system, built for you off your intake. You decide if it's a fit.

IF IT'S A FIT
You take care of the balance, and your app, your full system and your DNA kit all unlock.

YOUR 30 DAYS
Three coaching calls — Assess, Adapt, Assign — plus Jayme's phone the whole month.
